

Philip Victor, SISP
Head, Training & Outreach Department
CyberSecurity Malaysia

Bio Data

Philip Victor holds a Bachelor's Degree in Computer Science. He is also a certified Sensecurity Institute Security Practitioner (SISP). He has been involved in the IT field for the past 14 years and his experiences include working in a leading telecommunications company and educational field where he had lectured in many areas of Information Technology. His work involvement includes ICT Security, Network Design and development of IT related courses and training programs.

He currently heads the Training & Outreach Department at CyberSecurity Malaysia (formerly known as NISER) and is actively involved in promoting ICT Security Awareness for schools, organizations CNII and the general public. He is also actively involved in promoting Information Sharing among Information Security practitioners and professionals in the country through the INFOSEC.my platform that was started together with (ISC)². He has presented and conducted various ICT Security Awareness programs for many organizations and also for the general public. Some of his presentations include topics on Security Policy, Incident Response & Handling, Spam, Business Continuity Planning and Security Best Practices. He was also part of the Anti Spam Framework of Best Practices and Technical Guidelines 2004 committee. He has presented papers locally and internationally and has published papers in IT Journals.

At CyberSecurity Malaysia, he is also involved in identifying and developing specialized ICT Security courses in line with the organisation's objective to fill in the gaps that exist in the field of ICT Security in Malaysia. He is also actively involved in the development of Information Security professionals in Malaysia through collaboration with International certification bodies such as (ISC)², ISACA, BCI, SANS & DRII.
